Characteristics of Effective Learning: **Playing and exploring** – children investigate and experience things and have a go; **Active learning** – children concentrate and keep trying if they encounter difficulties and enjoy achievements; **Creating and thinking critically** – children have and develop their own ideas, make links between ideas, and develop strategies for doing things. In addition, the prime area of learning **PSE, CL and PD** underpin and are an integral part of all areas of learning.

Expressive Arts & Design Educational Programme: The development of children’s artistic and cultural awareness supports their imagination and creativity. It is important that children have regular opportunities to engage with the arts, enabling them to explore and play with a wide range of media and materials. The quality and variety of what children see, hear and participate in is crucial for developing their understanding, self-expression, vocabulary and ability to communicate through the arts. The frequency, repetition and depth of their experiences are fundamental to their progress in interpreting and appreciating what they hear, respond to and observe.

Intent: Through our Music Curriculum at Orleton school we want to stir children’s creativity through playing, performing, listening and experimenting with music. We value music as a form of expression and build a joy and a love of music through a well-planned curriculum. We hope to realise potential and develop pride and teamwork through regular performances.

Short and stout,

When I get all steamed up,
Hear me shout,

Tip me over and pour me out!
